SUMMARY

Industrial Engineering student with a Finance minor and hands-on experience across civil engineering, banking, and hospitality/operations roles. Skilled in AutoCAD, Microsoft Office, Java, and R, with a track record of organizing large-scale data systems and providing attentive, detail-oriented service. Seeking to apply strong analytical and organizational skills to an engineering or finance-related role.

EXPERIENCE

Outdoor Golf Operations *Aug 2026 – Present*

The Blessings Golf Club — Johnson, AR

- Set up and broke down the golf club grounds daily to prepare for operations
- Provided attentive, on-demand service to members, addressing requests and needs promptly

Credit Analyst *May 2026 – Aug 2026*

Anstaff Bank — Harrison, AR

- Sat in on loan meetings to gain exposure to credit evaluation and lending decisions
- Performed data entry for previous loan records, ensuring accuracy and completeness
- Traveled between branch locations to observe and understand varying workflows and operations

Civil Engineering Intern *May 2023 – Aug 2025*

Bates & Associates — Fayetteville, AR

- Created plats for customers using AutoCAD software
- Reorganized 25+ years of historical project files onto a new digital tracking system
- Cleaned and reorganized approximately 5,000 files to improve firm-wide accessibility
